Overview

WIGGLE WOOD is a truly independent production and a groundbreaking musical animation. Home to three adventurous young caterpillars — **Cyd, Chadwick & Cosmo** — the series follows the Wiggles as they take their first steps into an exciting world, learning how to manage their emotions, meeting new friends, and uncovering nature's best kept secrets.

Guided by **Bellona**, their guardian butterfly, the Wiggles discover that it's their differences that make them successful — and that being unique can be their very own superpower... just so long as they can work together.

The series is a modern take on Aesop's fables, where every adventure offers a mirror into Cyd, Chadwick and Cosmo's own lives. By helping others they develop their own skills and learn to navigate their emotions, abilities and friendships. Children and families will come for the comedy and music, but they will stay for the lovable characters and valuable insights into their own emotional well-being.

The Four Pillars

- Heart-warming stories with positive role-models
- Iconic design
- Original music
- Intelligent commissioning and marketing

The Characters

All three caterpillars are inquisitive and resourceful, but each has a very different approach that doesn't always gel with one another, making their friendships tricky to navigate. While slightly older than the target audience, Cyd, Chadwick and Cosmo are just like human 5-year-olds, beginning to see the subtle grey areas where life isn't quite so straightforward.

CYD

Innovative / Procrastinator

A thoughtful dreamer who doesn't just think outside the box — she imagines a world where there isn't one. She approaches problems from a completely unexpected angle, and her solutions are equally convoluted... but they work... sort of.

The most emotionally aware Wiggler, she always considers her friends' feelings, so much so that she overthinks everything. In her mind, no problem is too big, but she must work through every possible outcome before she fixes it.

Likes: Mysteries, puzzles, big ideas and Wiggle-pops (popcorn)

Dislikes: Feeling rushed; failure — everything has to be perfect

Dance move: Back spin — looks cool and helps her see the world from a different angle

Catchphrase: "Slow and steady... leaves more time for fun!"

COSMO

Proactive / Impatient

Determined, knowledgeable and never a minute late. A natural leader who always says what's on her mind and has everything planned out before the others have even found their shoes.

She is older than the other Wigglers (if only by a few minutes) and loves to remind them she's been around the branch a couple more times. Her single-mindedness often causes her to race past the emotional and magical moments along the way — and in doing so, miss some of the most important lessons of all.

Likes: Buttercup nectar, plants and ecology, giving a good lecture

Dislikes: Waste, inefficiency, thoughtlessness that impacts the natural world

Dance move: The belly buster — a caterpillar version of 'the worm'

Catchphrase: "If you want something done properly..."

CHADWICK

Headstrong / Emotional

The high-energy, high-spirited joker of the group. Born without back legs, Chadwick uses a wheelchair, but he is always first to the finish line. Fast-talking, fast-moving, and independent, driven by instinct, confidence, and a love of making people laugh.

His emotions run at full volume. When things go well, it is the best day ever. When they do not, it is a total disaster — at least in his mind. Passionate, messy, and a bit impulsive, the most expressive of the Wigglers.

Likes: Practical jokes (especially peekaboo), racing, and blueberry juice

Dislikes: Being ignored, coming last, rainy days if he has to stay inside

Dance move: Caterpillar Curl — rolls into a ball and backspins like a pinball

Catchphrases: "Someone needs a hug!" · "Race you... I won!"

BELLONA

Caring / Nurturing

The warm, wise heart of Wiggle Wood. Calm, compassionate, and endlessly kind, she helps the Wigglers reflect, grow, and find their own way. Like a cool big sister, always nearby but never overbearing — giving the Wigglers space to 'wiggle out' problems for themselves.

She seems to know everyone in Wiggle Wood. Through her many friendships we glimpse her own colourful past, reminding us that even the wisest butterflies were once little wigglers finding their way in the world.

Likes: Mentoring, learning, growth, singing and dancing

Dance move: The Butterfly Flutterby — an airborne pirouette capturing grace, energy, and joy

Catchphrases: "What can we learn?" · "Tell us your story." · "You teach me."

Guest & Recurring Characters

Each episode introduces a woodland resident whose problem mirrors what the Wiggles are experiencing, giving the audience empathy and insight through a fresh perspective.

Luna Glow-worm	Shy, sweet, and quietly determined. A glow-worm with stage fright who doesn't believe her glow is good enough. Already a series fan favourite — the kind of character children and parents want to protect.
Robin Robin	Theatrical, opinionated, and ever so slightly pompous. Carries himself with the air of a retired stage actor who has never quite retired. Tender beneath his bluster.
Oliver Owl	Robin Robin's nocturnal neighbour. Loves to DJ through the night with the joy of someone who has never once been told to keep it down. Means no harm — he simply has no idea what time it is.
Flora the Honeybee	Always busy, always buzzing, never stopping long enough to think things through. Flora means well, but her relentless busyness is often the cause of the very problems she's too busy to notice.
Nancy Weaver	A mischievous spider with a genuine gift for spinning stories. Not exactly dishonest — she just has a very creative relationship with the truth.
Admiral Butterfly	A gruff old friend of Bellona's who is too proud to ask for help. His grumpy exterior hides a friendly soul desperate for a friend.

Episode Format

Every 10-minute episode follows the same carefully considered structure — a repeatable emotional journey designed to resonate with preschool children and build genuine developmental value through storytelling, music, and reflection.

- 1

The Emotional Trigger

Each episode begins with one or more of the Wiggles experiencing a moment of emotional difficulty: worry, frustration, anxiety, anger, or uncertainty. The episode begins where the child already is.
- 2

Wiggle It Out

The Wiggles pause and wiggle it out — an uplifting, transitional music video moment in which the characters sing, move, and release their feelings. As the song ends they find themselves somewhere new in the world of Wiggle Wood.
- 3

The Guest Character

In a new location the Wiggles encounter a woodland resident facing a problem that mirrors their own. By listening, offering comfort, and trying to help, they begin to see their own situation differently. Children learn through empathy, not instruction.
- 4

Return to Caterpillar Cubby

The Wiggles return home to Caterpillar Cubby. With Bellona they reflect on what they've experienced and put their new understanding into words. The episode closes with a reflective song. The emotional lesson is gently consolidated — never prescribed.
- 5

The Mindfulness Moment

Every episode ends with a short mindfulness segment during the credits, offering simple, age-appropriate meditations focused on self-worth, calm, and gratitude — designed to ease the transition toward bedtime.

Music

Wiggle Wood's USP is its musical heart. The series will feature many original songs — some written by Musical Director **Jax Jones**, others by children's songwriting duo **Banks & Wag**.

Music unites broader demographics and encourages co-viewing. The timeless songs will enable Wiggle Wood to be a show that is 'hard to grow out of', allowing parents and carers to enjoy the series with their children, instead of being tormented by repetitive and annoying songs.

Three Songs Per Episode

1. Wiggle Wood Rock (working title)

The opening theme song — an inclusive introduction to the series and characters, welcoming everyone to Wiggle Wood, where no problem is too big and no hero is too small.

2. Wiggle It Out

The recurring pop song that encourages the Wiggles and the audience to shake away their worries and find a solution. A foot-stomping, heart-pounding call to action that will get children and families up and moving.

3. Reflection Song

Led by Bellona, this big musical number wraps the story up. Ten different reflection songs — each themed around a different emotional lesson — will be repeated throughout the series. For instance, the pilot episode features 'Your Best is Beautiful', a song about the value of trying your hardest.

Musical Influences

- 'Walking On Sunshine' — Katrina and the Waves
- 'Wake Up Boo' — The Boo Radleys
- 'Can't Stop the Feeling' — Justin Timberlake
- 'Just a Cloud Away' & 'Happy' — Pharrell Williams

The World of Wiggle Wood

Wiggle Wood is a traditional woodland, home to a huge and diverse population of insects, arachnids, reptiles, birds and small mammals. A natural, temperate environment broadly situated in the UK — though this is never stated in the series. As such, the world has seasons, offering a huge variety of stories to tell.

Some creatures live in the woods and some are just passing through — which means the Wigglers can bump into a spider collecting dew from her web, a flamingo who has lost her way, or even a giant polar bear who took a winter holiday but now needs to find shade. No matter who they are or where they come from, they all share one thing in common: they need help from the Wigglers.

Locations

Caterpillar Cubby	At the centre of the woods stands the Great Oak, and nestled in one of its 700-year-old branches is Caterpillar Cubby — the home, school and safe place for Bellona to teach her Wigglers. A hollow tree branch that has naturally grown into the shape of a caterpillar.
Wiggle Wood Way	The main highway through the woods — a forest track with travellers hiking or racing along on their own natural transportation, bringing a diverse range of visitors to the area.
Pebble Brook	A slow-running stream passing by the Great Oak and leading towards a lake in the meadow. Shallow enough for the Wigglers to play near safely — racing model leaf boats and splashing in the sunshine.
Midsummer Meadow	A vibrant flower meadow, home to a bustling population of small animals and insects just waiting for the Wigglers to lend them a helping hand.
Lily Pad Lake	A pond near the meadow that looks like a giant lake to the little Wigglers — where they can enjoy lakeside adventures and go waterskiing with the pond-skaters.

Look & Feel

Wiggle Wood is realised in **2.5D animation** — a process where 2D characters are given a degree of shading and weight, while the backgrounds have a depth of field and dynamic lighting that suggests a real-world backdrop to the Wiggles' adventures.

Characters are designed to feel aspirational, offering a little more emotional range than competing brands, with colour schemes that reflect the Wiggles' distinct personalities. The characters' unique silhouettes make them instantly recognisable: Cyd is round and cuddly, Cosmo is long and wiggly, Chadwick is compact and speedy — but they share a commonality in their design that makes them feel part of a team.

Caterpillars are naturally fuzzy and the heroes look very soft and huggable. The audience should imagine they can reach into the screen and squeeze their new friends. All movements will be replicable in the real world — the audience will want to dance along with them.

"This is the antithesis to over-stimulation. Think: accessible calm action and comedy — a family comedy where pacing and tone is appropriate for the youngest viewers, while layering in additional gags for older siblings and parents."

The Rules of Wiggle Wood

The bible makes clear what the world permits and what it categorically does not, so that every story decision is made with confidence.

Wiggle Wood is...

- A big, wide world, seen through the lens of a small child
- Full of wonder — nature is magical and there is a lesson to be learned from every creature
- Where real-world challenges become supersized from the kids' point of view
- Where choices have consequences and plotlines are always driven by the Wigglers' decisions
- Where the laws of physics apply — there is no magic, beyond nature's own
- A world without humans

Caterpillar Cubby is...

- A safe place where children can reflect on their experiences and grow
- Where we don't avoid difficult questions and age-appropriate behaviours
- Where failure is nothing to be afraid of
- Where differences and individuality are championed

The Wigglers are...

- The audience's best friends — real kids, with real joys, worries, interests and questions
- Fallible and make all the same mistakes as real children, but they always learn from them
- Messy — young caterpillars exploring their world and the relationships within it
- A mirror for the audience — every child should identify with at least one character motivation per episode

Sample Storylines

Ten episodes are already developed to outline stage and ready to go into production. A further twenty episodic springboards are prepared.

EPISODE 1

A Sticky Situation

Chadwick is determined to learn to play the bluebell horn, but won't accept anybody's help — even though his failure to make a sound with it is frustrating him. On their way through the wood, the Wigglers come across Red Admiral Butterfly, stuck in some sticky sycamore sap — and now Chadwick is stuck too. One by one the whole group gets stuck. The Admiral is contrite — he didn't want to admit he needed help. Together they call for help with a mighty blast of Cosmo's bluebell horn, drawing Barbara the Stag Beetle, who soon has everyone free.

Theme: It's OK to ask for help.

EPISODE 2

What's In a Name?

Cosmo is getting frustrated: Chadwick likes to call strawberries 'dawbees'; Cyd calls them 'red berries'. In the wood, they encounter Colin Woodlouse. Cosmo becomes increasingly animated listing woodlouse nicknames, while Cyd and Chadwick try to mime what each one makes them think of. Colin finally runs out of patience and stomps off in a huff. A gentle nudge from Bellona brings Cosmo to a revelation: she asks Colin which name he prefers. Colin smiles. 'It's... Colin!' Everyone laughs.

Theme: Respect what people choose to call themselves.

EPISODE 3

Funny Bug

Cyd and Cosmo are making silly hats, but Chadwick keeps jumping out on them shouting 'Boo!' In the wood, he encounters Simon Stick Insect. They begin a prank-off — but both soon get frustrated with each other's gags. Then Cyd and Cosmo arrive wearing their fabulously silly hats. Chadwick and Simon can't help but roll around laughing. Chadwick stops — Cyd and Cosmo made them laugh without a prank! In a joyful music sequence they discover different ways to make each other laugh: funny disguises, tickly vines, wiggly walks and silly faces.

Theme: There are lots of ways to make people laugh.

Further Springboards

Show Your Glow (pilot — full script available)

Luna the glow-worm is feeling shy about her shine. The Wigglers help her show her glow — and learn that your best is beautiful.

Don't Yuck My Dung

Bruno the dung beetle needs help rolling his dungball, but Cosmo does not like the idea of touching poo. Bruno teaches the Wigglers that just because you don't like something, it doesn't mean everybody feels the same way.

Hog Bugs

A gang of greedy locusts are passing through Wiggle Wood wanting to eat everything in sight. The Wigglers show that sharing has its own rewards.

Noisy Neighbours

Cosmo bumps into Oliver Owl, who's at his wit's end — his neighbour Robin Robin loves to sing, and nocturnal Oliver just wants to sleep.

Strong as Silk

Chadwick can't believe that Sansi Silkworm's thread is strong enough to help. He needs to learn that looks can be deceiving — and people can be stronger than they seem.

Brand Expansions

A rich and diverse world offering endless opportunities for future episodes, games, and merchandise — driving fandom and audience affinity through great storytelling and smart brand-building.
