

Wiggle Wood

Series Bible

52 x 10 minutes, 2D animation for children, aged 3 to 5 and families

CONFIDENTIAL – FOR APPROVED RECIPIENTS ONLY

Better World Entertainment · aimee@betterworldentertainment.com · wiggle-wood.com

Overview

WIGGLE WOOD is a truly independent production and a groundbreaking musical animation...

But most important of all, it's home to 3 adventurous young caterpillars named CYD, CHADWICK & COSMO.

Just like our target audience of 3- to 5-year-olds, these little 'Wigglers' are taking their first steps into an exciting world, learning how to manage their emotions, meeting new friends and uncovering nature's best kept secrets.

Guided by BELLONA, their guardian-butterfly, the Wigglers discover that it's their differences that make them successful and being unique can be their very own superpower... just so long as they can work together.

The series is a modern take on Aesop's fables, where every adventure offers a mirror into Cyd, Chadwick and Cosmo's own lives. By helping others, they develop their own skills and learn to navigate their emotions, abilities and friendships.

The series will feature many original and very catchy songs, through which the caterpillars 'wiggle out their problems' and share their discoveries with Bellona.

Children and families will come for the comedy and music, but they will stay for the lovable characters and valuable insights into their own emotional well-being.

READY?

THEN LET'S GET WIGGLING!

52 Episodes Series One	156 Total Episodes 3 Seasons	10 min Runtime Per Episode	3–5 Core Audience Age
----------------------------------	--	--------------------------------------	---------------------------------

– MEET THE CAST

The Characters

All three of our little caterpillars are inquisitive and resourceful, but they each have a very different approach that doesn't always gel with one another, making their friendships tricky to navigate.

While our Wiggles are a little older than the target audience, Cyd, Chadwick and Cosmo are just like human 5-year-olds, in that they are just beginning to see the subtle grey areas where life isn't quite so straightforward. They have very distinct personalities and degrees of social awareness, and this is always evident in their reactions, decisions and how they move.

Cyd is a free spirit, and a very free thinker. She paints with a broad brush and dances like NOBODY is watching,

Cosmo is analytical and a little more introverted. She paints with a fine brush and dances like EVERYONE is watching,

Chadwick is bold, loud and full of unearned confidence. He paints with a roller and dances like EVERYONE SHOULD be watching!

Despite their differences, the Wiggles care deeply about one another and always have each other's backs. They may fall out and argue along the way, but each new discovery offers exactly the right life-lesson to help the Wiggles understand themselves and each other.

CYD

INNOVATIVE / PROCRASTINATOR

A thoughtful dreamer, Cyd (pronounced 'Sid') doesn't just think outside the box, she imagines a world where there isn't one! She approaches problems from a completely unexpected angle, and her solutions are equally convoluted... but they work... sort of!

She is the most emotionally aware Wiggler and always considers her friends' feelings, so much so that she over-thinks everything, curling into a ball and scratching her head with every limb. In her mind, no problem is too big, but she must work through every possible outcome before she fixes it. This can frustrate her friends when they want to race ahead.

Cyd arrives at a destination or finishes a job when the time is right. She is fascinated by everything she sees and has endless enthusiasm. Though her tendency to drift can test her friends' patience, her unique perspective and inventive problem-solving often save the day in ways no one else would expect.

When she is excited or has solved a problem, she congratulates herself by jumping up and clapping all her arms and legs.

LIKES: mysteries, puzzles, big ideas and Wiggle-pops (popcorn).

DISLIKES: feeling rushed, failure – because everything has to be perfect.

CATCHPHRASES: "Slow and steady... leaves more time for fun!" / (Holding up a finger) "Thinking... Thinking... Still thinking!"

SIGNATURE DANCE MOVE: Back spin – it looks cool and helps her see the world from a different angle.

COSMO

PROACTIVE / IMPATIENT

Determined, knowledgeable and never a minute late, Cosmo is a natural leader who always says what's on her mind and has everything planned out before the others have even found their shoes!

She is older than the other Wigglers (if only by a few minutes) and loves to remind Cyd and Chadwick that she's been around the branch a couple more times than them. She can be very proactive, but her single-mindedness often causes her to race past the emotional and magical moments along the way, and in doing so, miss some of the most important lessons of all.

Cosmo may seem serious, but she loves to laugh with a much quieter chuckle than her more outgoing friends and she finds humour in the smallest of details. She is a walking encyclopaedia, fascinated by plants (because they always know what to do and they don't let anything get in their way) and loves to share knowledge – giving detailed lectures at precisely the wrong moment.

Cosmo always carries her trusty backpack when she is out and about – giving her access to exactly the right tool for the job. When she is excited or solves a problem, she gives herself a tiny self-conscious clap and a wiggle.

LIKES: buttercup nectar, plants and ecology, giving a good lecture!

DISLIKES: waste, inefficiency, thoughtlessness that impacts the natural world.

CATCHPHRASES: "If you want something done properly..." (do it yourself / tell Cyd to start a week early / don't let Chadwick get involved!) / "I am certain THAT isn't how it's supposed to work" (completely missing any subtle cues from her friends)

SIGNATURE DANCE MOVE: The belly buster! A caterpillar version of 'the worm' which allows her to slip through tight spaces.

CHADWICK

HEADSTRONG / EMOTIONAL

Chadwick is the high-energy, high-spirited joker of the group. Born without back legs, Chadwick uses a wheelchair, but he is always first to the finish line. Fast-talking, fast-moving, and independent, he is driven by instinct, confidence, and a love of making people laugh... but he sometimes forgets that not everyone finds the same thing funny.

He is very driven and self-assured, often charging ahead with no plan, other than an unshakeable belief that he and his friends will figure it out. Chadwick's emotions run at full volume. When things go well, it is the best day ever. When they do not, it is a total disaster, at least in his mind. Passionate, messy, and a bit impulsive, he is the most expressive of the Wigglers, but he always stops in his tracks to connect with others – skidding to a halt and hoping to impress them with a cool spin or handstand.

LIKES: practical jokes (especially peekaboo), racing, and blueberry juice.

DISLIKES: being ignored, coming last, rainy days (if he has to stay inside).

CATCHPHRASES: "Oh, I did that already – hope it works!" / "Someone needs a hug!" / "Race you... I won!"

SIGNATURE DANCE MOVE: Caterpillar Curl! He rolls into a ball and backspins - ricocheting around like a pinball.

BELLONA

CARING / NURTURING

Bellona is the warm, wise heart of Wiggle Wood. Calm, compassionate, and endlessly kind, she helps the Wigglers reflect, grow, and find their own way. Like a cool big sister, Bellona is always nearby but never overbearing, giving the Wigglers space to 'wiggle out' problems for themselves without ever making them feel led.

Unflappable and full of grace, Bellona encourages curiosity and self-discovery, helping the Wigglers find the words for a lesson they have already understood.

She seems to know everyone in Wiggle Wood. Through her many friendships, we glimpse her own colourful past, reminding us that even the wisest butterflies were once little wigglers finding their way in the world.

Above all, Bellona loves a good song and dance, because she knows that there is no problem so big that it can't be solved with a big production number... and this is one butterfly that knows how to rock!

LIKES: Mentoring, learning, growth, singing and dancing.

DISLIKES: None – she is a force of positivity!

CATCHPHRASES: "What can we learn?" "Tell us your story." "You teach me."

SIGNATURE DANCE MOVE: The Butterfly Flutterby! An airborne pirouette that captures her grace, energy, and joy, because Bellona dances like she already knows every move!

Guest Characters

LUNA GLOW-WORM

Luna is the emotional heart of the pilot episode. Shy, sweet, and quietly determined, she is a glow-worm with stage fright who doesn't believe her glow is good enough. Through her friendship with the Wiggles and a little courage of her own, she learns that the very glow she has been hiding is the most beautiful thing about her. Luna is the kind of character children and parents identify with and want to protect. She has already won over test audiences, and is set to become a recurring presence in the Wiggle Wood world.

ROBIN ROBIN

Theatrical, opinionated, and ever so slightly pompous, Robin Robin carries himself with the air of a retired stage actor who has never quite retired. He is tender beneath his bluster, and endlessly entertaining to be around.

Oliver Owl

Robin Robin's nocturnal neighbour. Oliver loves to DJ through the night with the joy and innocence of someone who has never once been told to keep it down. He means no harm. He simply has no idea what time it is.

Flora the Honeybee

Always busy, always buzzing, and never quite stopping long enough to think things through. Flora means well, but her relentless busyness is often the cause of the very problems she is too busy to notice.

Nancy Weaver

A mischievous spider with a genuine gift for spinning stories. Nancy is not exactly dishonest. She just has a very creative relationship with the truth.

Admiral Butterfly

A gruff old friend of Bellona's who is too proud to ask for help. His grumpy exterior hides a friendly soul who is desperate for a friend.

Episode Format

Every 10-minute episode of Wiggle Wood follows the same carefully considered structure, a repeatable emotional journey designed to resonate with preschool children and build genuine developmental value through storytelling, music, and reflection.

1 The Emotional Trigger

Each episode begins with one or more of the Wiggles experiencing a moment of emotional difficulty: worry, frustration, anxiety, anger, or uncertainty. These are feelings every young child recognises. The episode begins where the child already is.

2 Wiggle It Out

Rather than moving straight into action, the Wiggles pause and wiggle it out. Wiggle It Out is a recurring musical centrepiece of every episode: an uplifting, transitional music video moment in which the characters sing, move, and release their feelings. It is both emotionally purposeful and enormously watchable, a moment that children will return to, sing along with, and carry with them. As the song ends, the Wiggles find themselves somewhere new in the world of Wiggle Wood, ready for what comes next.

3 The Guest Character

In this new location, the Wiggles encounter a woodland resident or a creature passing through Wiggle Wood, facing a problem that mirrors their own. By listening to that character, offering comfort, and trying to help, the Wiggles begin to see their own situation differently. The shift in perspective is not taught. It is discovered. This is the emotional core of the format: children learn through empathy, not instruction. Success is not always guaranteed, but teamwork, empathy, and listening lead the Wiggles closer to what really matters.

They don't always succeed at every challenge, but the Wiggles learn that value can be found in failure and that they are stronger when they work together and listen to each other's best ideas. Whatever the problem they face, they draw inspiration from the natural world around them. And, of course, Bellona Butterfly is always on hand to point them in the right direction.

4 The Return to Caterpillar Cubby

The Wiggles return home to Caterpillar Cubby, their treehouse in the heart of Wiggle Wood. With Bellona, their warm and wise caregiver who is present throughout every episode, they reflect on what they have experienced and put their new understanding into words. The episode closes with a reflective song that reinforces the emotional arc of the story, often led by Bellona, whose musical presence creates consistency across the series and supports future music video, playlist, and licensing opportunities. The emotional lesson is gently consolidated, never prescribed.

5 The Mindfulness Moment

Every episode ends with a short mindfulness segment during the credits, offering simple, age-appropriate meditations focused on self-worth, calm, and gratitude. These gentle moments are designed to support positive mental health in young viewers and to ease the transition between episodes or toward bedtime, leaving children settled, reassured, and ready for what comes next.

Running Order

(10")	SHORT OPENING TITLES
(20")	CHARACTER INTRO / SCENE SETTER – a laugh out loud moment to hook the audience, as they discover what their on-screen friends are up to this time.

(40")	MAIN CHARACTER CHALLENGE – something goes right or wrong; there is a disagreement, a challenge, or question that needs to be answered; someone wants something they can't have (yet), or the Wiggles fall out with each other... something to drive their emotional learning.
(45")	WIGGLE IT OUT – the trigger for their adventure, where Bellona takes them on a journey to leave their frustrations behind and wiggle out a solution. This flows into a musical sequence - think 'A Spoonful of Sugar' sung by Lady Gaga - played out over a short journey or activity.
(30")	GUEST CHARACTER INTRO - the Wiggles meet a friend and learn about them and their current predicament. This can have a positive or a negative impact on the existing emotional story as the Wiggles put aside their personal concerns to help their friend.
(1'10")	CHAOS ENSUES - lots of comedy, slapstick, and music, as the Wiggles put their learning into practice and find their initial plan does not work, either through their own misjudgement or external factors. This can be fueled by the Wiggles' own needs - or the guest character's own hubris!
(30")	THE ACCIDENTAL LESSON - the Wiggles stumble across some inspiration that brings them back on track. This can come from the guest character and the facts we have learned about them, a reminder of a promise from the opening scene, a lesson learned through helping another, or in extreme circumstances from Bellona (though she usually likes to give them room to learn for themselves). The learning always comes through the Wiggles' actions or the guest characters' situation, rather than an on-the-nose lesson.
(1'20")	EMOTIONAL PAYOFF - the Wiggles help their friend and have a realisation about their own situation.
(1'00")	BESPOKE SONG – back at Caterpillar Cubby, the Wiggles recall their adventure with a song.
(10")	COMEDY BUTTON – always end on a short comedy beat to keep the audience coming back for more!
(25")	END TITLES – MINDFULNESS / YOGA SEQUENCE

– THE SERIES USP

Music

Wiggle Wood's USP is its musical heart, and the series will feature many original songs, some written by our Musical Director, Jax Jones, others written by children's song-writing duo Banks & Wag.

Music unites broader demographics and encourages co-viewing. While older children do not typically watch the same content as 3-year-olds, they are more likely to when good music is incorporated, as it is a key unifier for a family audience and this will drive family viewing.

The timeless songs throughout the series, will enable Wiggle Wood to be a show that is 'hard to grow out of'. It will also enable parents and carers to enjoy the series with their children, instead of being tormented by repetitive and annoying songs (we're looking at you Baby Shark!)

Our musical influences are positive songs that energise and inspire our target audience:

- 'Walking On Sunshine' by Katrina and the Waves
- 'Wake Up Boo' by The Boo Radleys
- 'Can't Stop the Feeling' by Justin Timberlake
- 'Just a Cloud Away' and 'Happy' by Pharrell Williams

Each episode features three musical moments:

- 1 'Wiggle Wood Rock' (working title)**
'Wiggle Wood Rock' (working title) is our opening theme song. It's an inclusive introduction to the series and our characters, welcoming everyone to Wiggle Wood, where no problem is too big and no hero is too small.
- 2 'Wiggle it Out'**
'Wiggle it Out' is our recurring pop song that encourages the Wiggles and the audience to shake away their worries and find a solution to whatever challenge they face. It is a foot-stomping, heart-pounding call to action that will get children and their families up and moving.
- 3 Reflection song**
Reflection song – led by Bellona, this big musical number wraps the story up, allowing the characters and the audience to reflect on what they have learned. Ten different reflection songs, themed around a different emotional lesson or well-being theme will be repeated throughout the series – each tailored to fit storylines relating to the song's core theme.

For instance, in the pilot episode, the Wiggles end their adventure by singing 'Your Best is Beautiful' – a song about the value of trying your hardest and knowing that your best efforts are just as good as someone else's.

Over the course of the series, our hit songs will be released on a Wiggle Wood album for children to enjoy again and again.

The World of Wiggle Wood

Wiggle Wood is a traditional woodland, home to a huge and diverse population of insects, arachnids, reptiles, birds and small mammals.

Some of these creatures live in the woods and some are just passing through, which means the Wigglers can bump into a spider collecting dew from her web, a flamingo who has lost her way while looking for the shrimp to eat that give her the pale pink colour she is known for, or even a giant polar bear who took a winter holiday but now needs to find shade from the spring sunshine. No matter who these animals are, or where they come from, they all share one thing in common: they need help from the Wigglers.

Wiggle Wood is a natural, temperate environment and broadly situated in the UK (though this is never stated in the series). As such, our world has seasons and this offers a huge variety of stories to tell, since a similar theme can be experienced in a very different way during the winter, as opposed to the summer.

The seasons affect the inhabitants of Wiggle Wood, and the Wigglers will come across friends old and new at different stages in their seasonal life cycle. A character they may have previously helped during the spring months will face different challenges during the autumn, as they prepare for the coming cold weather – allowing us to revisit audience favourites.

This also provides opportunities for seasonal specials that tie into those tent-pole moments in kids' lives – from typical spring, summer, autumn and winter activities to those based in the animal kingdom, such as hibernation, migration, flood, drought, growth and rebirth.

Locations

Wiggle Wood is an ever-expanding world of opportunity, with a new location hiding around every leafy corner – just waiting to be explored. New locations will be introduced through the series, with the following locations standing out as our starting points.

CATERPILLAR CUBBY	At the centre of the woods stands the GREAT OAK; and nestled in the nook of one of its 700-year-old branches is CATERPILLAR CUBBY. This is the home, school and safe place for Bellona Butterfly to teach her Wigglers about the world all around them, and to help them navigate the relationships that are beginning to evolve between each other and their friends in Wiggle Wood. The Cubby is a hollow tree branch that has naturally grown into the shape of a caterpillar. It features three rooms, including the Wigglers' bedroom, a living space, a play-space and a greenhouse where the caterpillars cultivate their food. It's the heart of every story and the safe space the Wigglers return to after wiggling out their lesson for the day.
WIGGLE WOOD WAY	The main highway through the woods runs right past the Great Oak and brings a diverse range of visitors to the area. Rather than a busy street, this is a forest track, with travellers hiking or sometimes racing along on their own natural transportation.
PEBBLE BROOK	This slow running stream passes by the Great Oak and leads off through the woods towards a lake in the meadow. It is a water supply for the woods and is shallow enough for the Wigglers to play near it safely, racing model leaf boats and splashing in the sunshine.
MIDSUMMER MEADOW	A vibrant flower meadow, home to a bustling population of small animals and insects just waiting for our Wigglers to lend them a helping hand. Long grasses and bright flowers sway in a warm breeze, providing an exciting landscape for our heroes to explore.
LILY PAD LAKE	A pond near the meadow looks like a giant lake to our little Wigglers. Here, they can enjoy lake-side adventures, safe on the floating lily pads and travel across the lake to go waterskiing with the pond-skaters.

Look and Feel

Wiggle Wood is realised in 2.5-D animation – a process where 2D characters are given a degree of shading and weight, while the backgrounds have a depth of field and dynamic lighting that suggests a real-world backdrop to the Wiggles’ adventures.

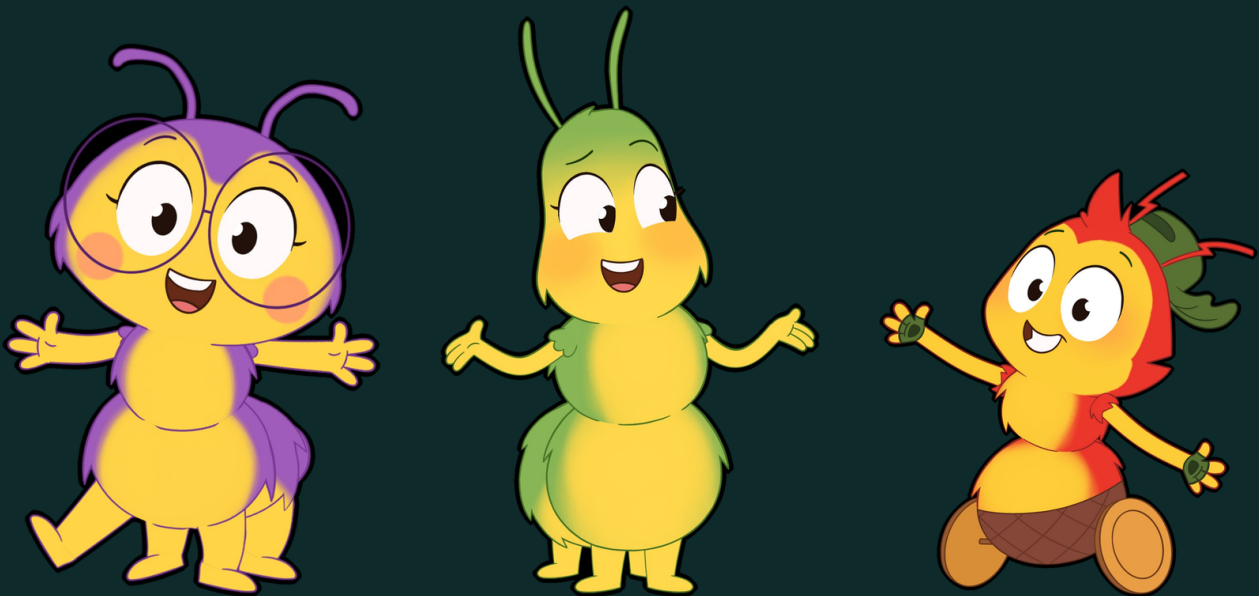

We want the audience to identify with the characters instantly. They are designed to feel aspirational, offering a little more emotional range than competing brands, with colour schemes that reflect the Wiggles’ distinct personalities.

A large proportion of the emotional storytelling will come through the facial expressions and body language to ensure the stories can be understood by all ages and abilities. The characters’ unique silhouettes make them instantly recognisable: Cyd is round and cuddly, Cosmo is long and wiggly, Chadwick is compact and speedy; but they also have a commonality in their design that makes them feel part of a team.

Caterpillars are naturally fuzzy and our heroes look very soft and huggable. We want the audience to imagine they can reach into the screen and squeeze their new friends, just as they would their favourite toy at home – or even their very own plush Wiggler!

The Wiggles love to sing and dance, so the caterpillars’ bodies have a lot of movement, allowing them to flex and perform as a child would. The audience will want to dance along with them, so all movements will be replicable in the real world (even though they will have fewer limbs than the caterpillars!)

Above all, this is a family comedy, and we will ensure that the pacing and tone is appropriate for our youngest viewers, while layering in some additional gags for older siblings and parents. A lot of the comedy will come from the characters’ physicality. They are sectional, so we can have a fair amount of stretch and squash within those sections, and fast-paced movement - but this will be balanced with calmer beats to avoid episodes becoming too busy. This is the antithesis to over-stimulation. Think: accessible calm action and comedy!

Wiggle Wood Rules

Wiggle Wood is...

- a big, wide world, seen through the lens of a small child.
- full of wonder, because nature is magical and there is a lesson to be learned from every creature.
- where real-world challenges become supersized from the kids' POV.
- where choices have consequences and plotlines are always driven by the Wiggles' decisions.
- where the laws of physics apply (there is no magic, beyond nature's own).
- a woodland where any creature can exist and is always in need of help from the Wiggles.
- a world without humans.

Caterpillar Cubby is...

- a safe place where children can reflect on their experiences and grow.
- a small pool where the tiniest change can create the biggest ripples.
- where we don't avoid difficult questions and age-appropriate behaviours.
- where failure is nothing to be afraid of.
- where differences and individuality are championed.

The Wiggles are...

- the audience's best friends – they are real kids, with real joys, worries, interests and questions.
- fallible and make all the same mistakes as real children, but they always learn from them.
- messy - they are young caterpillars, exploring their world and the relationships within it. As with any pre-schooler, small mistakes have big consequences from their point of view, and they need to navigate the complexities of the relationships around them.
- a mirror for the audience. Every child should identify with at least one of the character motivations in any given episode.

Sample Storylines

We have 10 episodes already developed to an outline stage and ready to go into production. Below are some samples.

#1 - A Sticky Situation

CHADWICK is determined to learn to play the bluebell horn (an instrument made from a bluebell flower), but he won't accept anybody's help, even though his failure to even make a sound with it is frustrating him. Chadwick becomes even more annoyed when COSMO gives him a demonstration – she can play really loud! Time for Bellona to send the Wigglers to wiggle out their problem.

On their way through the wood, the Wigglers come across RED ADMIRAL BUTTERFLY, perched on the side of a sycamore tree. On seeing the wigglers, the Admiral is not his usual gruff, avuncular self; he's a bit cagey, telling them to just go about their business – nothing to see here. CYD is suspicious, is something wrong? Does the Admiral need help!? The Admiral blusters – he doesn't need help; he's just staying here because... there's such a lovely view. Chadwick likes the sound of this – he whizzes up the tree to see the view too, even though Admiral protests. Chadwick is confused; there's no view at all because a big leaf is in the way! It's then that Chadwick discovers the Admiral's real reason for staying here. It turns out he wasn't being completely up front about not needing help – he's stuck in some sticky sycamore sap and now Chadwick is stuck too!

Cyd and Cosmo try to help but quickly find themselves stuck as well. The Admiral is contrite – he didn't want to admit he needed help – he thought he could get out of this sticky situation on his own, but now they're all stuck! Cyd wonders if maybe now would be a good time to ask for help, the Admiral agrees. They all start shouting for help, but there doesn't seem to be anyone near enough to hear; they need to be louder. Cyd has an idea – Cosmo's was loud on the bluebell horn – maybe try that!

Cosmo pulls out the bluebell horn and gives a mighty blast, drawing the attention of Barbara the Stag Beetle. The Wigglers call out to warn her of the sap, and the strong beetle soon has everyone out of the sticky fix. The Admiral is grateful – admitting that everybody needs help sometimes. Back at the Caterpillar Cubby, BELLONA leads a song about it being OK to ask for help. Chadwick finally has the courage to ask Cosmo if she'll help teach him how to play the bluebell horn, which she does... And Chadwick gives the song a rousing, if slightly off-tune ending.

#2 - What's In a Name?

Our Wigglers are having a tasty snack, but COSMO is getting frustrated: CHADWICK likes to call strawberries 'dawbees'; Cyd calls them 'red berries'. Cosmo just can't understand why the others can't use the right name. BELLONA eases Cosmo onto a different topic by suggesting they head out into the wood to wiggle out their problems.

As the friends wiggle through the wood, they encounter COLIN WOODLOUSE. Cosmo is excited to see her friend, she's been reading all about woodlice! Does Colin know that woodlice have lots of funny nicknames? Colin sighs – he absolutely does know this, but Cyd and Chadwick are eager to know more – what sort of nicknames? Cosmo starts to list the names but then becomes concerned about what the right name for a woodlouse actually is – after all, Colin isn't even a louse – he's a crustacean! And pillbug doesn't work, he's not a bug! Colin is near his wits end, but Cosmo misinterprets Colin's feelings as frustration about them not having found the right name. She sings a song expressing her consternation, Cyd and Chadwick giggling as they try and mime the things the names make them think of!

As the song reaches its climax Colin finally runs out of patience and stomps off in a huff. Cosmo is distraught – what did she do wrong!? A gentle nudge from Bellona, who has a knack for being in the right place at the right time, brings Cosmo to a revelation – she knows what she did wrong and how to put things right.

After a big apology Cosmo tells Colin that she has a question: there are all these funny names for woodlice, but what does Colin want to be called? Colin smiles and giggles – there is actually a name that he likes best... The Wigglers hold their breath, waiting to hear what it is... Colin clears his throat, dramatically. "It's... Colin!" The friends all laugh – that is an excellent name, and Cosmo is happy to learn that everyone should respect what people choose to call themselves. And Bellona is on hand to lead everyone in a song celebrating the names we choose to call ourselves.

#3 - Funny Bug

CYD and COSMO are having fun making silly hats, but CHADWICK is in a playful mood – all he wants to do is burst out on Cyd and Cosmo shouting 'Boo!' and making them jump. It was kind of funny the first time, but all the boos are getting in the way of their all-important hat-making, so BELLONA suggests Chadwick heads off into the wood to wiggle things out.

As Chadwick wiggles along he hears someone calling his name but is confused when he can't work out where the cheeky voice and laughter is coming from. Is it a ghost? Or the spirit of Wiggle Wood!? An "Owl!" and a bump reveal who the seemingly disembodied voice belongs to – it's Chadwick's friend SIMON STICK INSECT! He has been masquerading as a twig this whole time. Chadwick thinks this gag is really funny – at last he's found someone to appreciate his sense of humour.

The friends begin a prank-off with Chadwick trying to jump out on Simon to make him jump, and Simon trying to trick Chadwick, fooling him into thinking that normal sticks are really him. But both friends soon begin to get frustrated with the other's gags. Thankfully, Cyd and Cosmo arrive to show off their hats – they're fabulously silly and covered with feathers and twirly bits. Chadwick and Simon can't help but roll around laughing, but Chadwick stops laughing – Cyd and Cosmo managed to make them laugh without a prank! Cyd giggles – of course – there are lots of ways to make people laugh!

In a joyful music sequence Simon and the Wigglers discover different ways to make each other laugh with funny disguises (twig wigs and leaf moustaches), tickly-vines, wiggly walks and silly faces. Bellona finds them all rolling on the floor laughing, and they all giggle even more when Simon pulls his old trick of pretending to be a twig. Bellona leads the friends in a song about the joy of laughter and how laughing with your friends is the best thing of all.

Episodic Springboards

We have 20 further episodic springboards to enable the production to hit the ground running. Below are some samples of the adventures to come...

#1 - Show Your Glow (full pilot script available)

Luna the glow-worm is feeling shy about her shine. It's up to our wiggly friends to find a way to help her show her glow, and in the process learn that your best is beautiful.

#2 - Don't Yuck my Dung	Bruno the dung beetle needs help rolling his dungball, but Cosmo does not like the idea of touching poo. Bruno needs to teach the Wigglers about the wonders of dung and that, just because you don't like something, it doesn't mean everybody feels the same way. And that's fine.
#3 - Hog Bugs	A gang of greedy, gregarious locusts are passing through Wiggle Wood wanting to eat everything in sight. Our Wigglers, with the help of Bellona, show the bothersome bugs that you don't have to pig out and that sharing has its own rewards.
#4 - Noisy Neighbours	Cosmo is trying to construct a new swing for the Wigglers, but she can't concentrate as Chadwick and Cyd are having an impromptu dance party. She heads off to wiggle out her frustration and bumps into Oliver Owl, who's at his wit's end – his noisy neighbour, Robin Robin, loves to sing, and nocturnal Oliver just wants to sleep. Practical Cosmo tries to figure out ways to help the owl sleep, such as earplugs and soundproofing Oliver's tree hollow, but nothing works. Maybe there's a simpler solution?
#5 - Strong as Silk	Gung-ho Chadwick has got himself into a pickle and Cyd and Cosmo are going to need some sort of rope to get him out. Sansi Silkworm offers up her thread, but Chadwick can't believe that something so thin will be strong enough. Our caterpillar friend needs to learn that looks can be deceiving and things (and people) can be stronger than they seem.

Brand Expansions

WORLDWIDE SERIES LICENSE	Traditional Broadcast Series pick-up and production of further episodes / Film Rights and cinematic episode compilations and sing-alongs
LIVE ENTERTAINMENT LICENSING	Theatre Rights – Wiggle Wood: The Musical / Theme Parks – Wiggle Wood World
DIGITAL GAMES (made for Nintendo Switch, and mobile platforms)	Side-scrolling/platform adventure / Touch screen educational and design experiences
BOOKS	Read along at home with books and a comic / Facts about the natural world – discover your very own Wiggle Wood / Aligning the storytelling and visual style for the series, games, and print
AUDIO EXPERIENCES	Audio books, full-cast adventures, jokes, and games - via Tonies, YouTube Kids, Audible Kids, podcast platforms and smart speakers (Alexa, Apple, Google)
COMMERCIAL PRODUCTS	Plush toys, playsets and figures, vinyl collectables, board games
SCHOOL TIE-INS	Educational packs and lesson plans, based on episodes from the series

Creative Team

CREATOR

Aimée Anderson

Aimée Anderson is Founder and CEO of Better World Entertainment, a new production company dedicated to social impact storytelling and has worked as a senior marketer for over 20 years, building and advising some of the world's most iconic brands through storytelling. Having specialised in film and TV for the last 15 years, gaining a seat on the board of the pre-eminent film and TV PR agency DDA as Managing Director, and working with Netflix, Disney, Universal Studios and Sony as well as independent filmmakers, Aimée is extremely well-versed in the production space. She founded ACCESS ALL AREAS Ltd (TRIPLE A) in 2016 – a global agency which specialised in helping brands create revolutionary content through pioneering entertainment partnerships in film and television, where brand partners turn their sponsorship budgets into equity investments. A standout partnership the agency facilitated was with tech giant HP Inc and the movie MANTO. Directed by Nandita Das, the film premiered in 2018's Cannes Film Festival in its prestigious Un Certain Regard category and was picked up by Netflix worldwide. Aimée has also worked with consumer brands that have used film and TV as a vehicle for consumer engagement, including Red Bull, Swarovski, Hewlett Packard, and she has worked on a host of A-List films such as THE KING'S SPEECH (Colin Firth), TERMINATOR 4 (Christian Bale), THE INFILTRATOR (Bryan Cranston) and ENDER'S GAME (Harrison Ford).

SHOWRUNNER

Adam Carter

Adam is a Screenwriter and Royal Television Society Award-winning Creative Producer, with 20 years' experience of crafting award-winning entertainment for children and families. He started off as a Henson-trained puppeteer before moving into scripting and production, where he says the job is just as rewarding, but easier on the knees! Since hanging up the puppets, Adam has led creative teams in live action, animation, and video games – creating engaging characters and telling stories that reach kids wherever they are. After 13 years at the BBC, he moved on to lead teams at Moonbug, known for their digital-first acquisitions strategy, and is also developing a series for Sky Kids. Credits include: Duck & Frog, Oddbods, Booba, The Raccoons, Go Jetters, JoJo and Gran Gran, Blue Peter, CBeebies As You Like It at Shakespeare's Globe, Legends of MeoShín'Ké, and many more in development. Above all, Adam loves to collaborate with like-minded creatives and inspire children to laugh, play, and discover new ideas.

HEAD WRITER

Jen Upton

Jen is an award-winning writer and producer. She has developed, written and produced family favourites, including Peppa Pig, Pip and Posy, Paddington, Fireman Sam, Noddy and Dennis and Gnasher. She's worked with industry leaders including Disney, Netflix, CITV, CBC, Warner, Aardman, BBC, Nickelodeon and 9 Story/Brown Bag Films. Jen lives in Buckinghamshire with her husband, two daughters, a fat black cat called Bob, and a fluffy dog called Monty.

MUSICAL DIRECTOR

Jax Jones

Jax is a DJ, songwriter, producer and remixer. His breakthrough came after meeting Duke Dumont, and together they co-wrote and produced the single "I Got U" a track which reached number 1 in the UK singles chart. Since then, he has released many hit singles, including 'All Day and Night' featuring the American pop star Madison Beer which became Jones' and Beer's first number-one on Billboard's chart. His biggest subsequent hits are 'You Don't Know Me' featuring Raye, which peaked at number three on the UK Singles Chart and 'Instruction' featuring Demi Lovato & Stefflon Don, which peaked at number one on the UK Singles Chart. Jax will pen the theme song as well as the tentpole original song for each season of Wiggle Wood.

EPISODIC COMPOSERS AND SONGWRITERS

Banks & Wag

Well known for their hooky melodies and versatility, British composers Chris Banks & Wag Marshall-Page are the creative energy behind a diverse range of Entertainment, Children's, and Comedy series. Starting out as jingle writers for everything from cars to compost, margarine to mobiles - via stints with Busted, McFly, Sophie Ellis-Bextor, and Sugababes - the pair are now recognised as leading composers, songwriters, and music producers. Their extensive list of credits includes Royal Television Society and BAFTA award-winning television, Sony award-winning radio, Promax BDA award-winning commercials, and an array of iTunes #1 singles, plus an unlikely Japanese Billboard #1, beating Ed Sheeran and Queen to the top spot. To the nation's pre-schooler parents, they are the masterminds behind many of CBeebies' most virulent ear-worms: the award-winning Go Jetters, ZingZillas, and the channel's annual song-filled Christmas Shows. Their experience in Children's productions also extends to UK flagships Blue Peter, Newsround, Something Special (home of the ubiquitous Mr. Tumble); and Netflix's Mighty Little Bheem - the platform's most watched international release of 2019. With their infectious enthusiasm, eclectic musical background, and relentless desire to give programmes a strong sense of melodic identity, Banks & Wag are much in demand as composers for television.

VOICE DIRECTOR

Dave Peacock

Dave Peacock has been voice directing and casting professionally for almost 20 years. Working across all sectors but specialising in animation, he has become one of the most in demand voice directors in the UK having directed over 70 TV series and a dozen features. He's worked all over the world on titles such as Hilda, Thunderbirds are Go!, Moominvalley, The Octonauts, Dennis & Gnasher Unleashed, 101 Dalmatian Street, Love, Death & Robots, Kiya & The Kimoja Heroes, The Creature Cases, Go Jetters, Scream Street, Supa Team 4, The House and Kingsglaive: Final Fantasy XV. Shows he's directed have won many awards, and in 2021 and 2022 he was nominated for Emmys for his voice direction on Hilda. In 2022 he won an Emmy as Supervising Dialogue Editor on Octonauts: Ring of Fire.

NATURE ADVISOR

Ian Redmond, OBE

Ian Redmond is our animal and nature advisor for Wiggle Wood. He is a tropical field biologist and conservationist. An animal and nature expert, he is most renowned for his work with great apes and elephants. Born in Malaysia, Ian's passion for animals developed during his boyhood in Yorkshire and took him to Africa in 1976. There he joined Dian Fossey, studying and protecting the mountain gorillas of Rwanda and Zaire (DRC). This work also led him into documentary filmmaking. Ian is the man who introduced Sir David Attenborough to the gorillas in 1978, for the famous BBC 'Life on Earth' sequences, and who taught Sigourney Weaver to grunt like a gorilla in 1987, for her award-winning role in the film 'Gorillas in the Mist' (in which he is characterised as 'The Worm Boy'). He has advised in the making of, and appeared in, more than 100 documentaries for the BBC, National Geographic (most recently 'Secrets in the Mist' about Dian Fossey), Discovery Channel, TF1, etc. and the 3D movie 'The Last of the Great Apes'. His books have been translated into many languages, and he is in demand as an entertaining and thought-provoking public speaker and interviewee.

CREATIVE STRATEGIST AND DISABILITY CONSULTANT

Ally Castle MBE

Ally Castle MBE is a creative strategist specialising in content, communication and corporate strategy across broadcasting, digital and emerging platforms. With more than two decades of senior experience at the BBC across audience planning, commissioning and corporate strategy, she brings both creative sensitivity and analytical rigour to content development. Her expertise lies in introducing structure and clarity to the creative process, ensuring that ideas and innovation flourish while strong editorial decisions are confidently made. She is particularly skilled in using market and audience insight to unlock both cultural impact and commercial opportunity. Ally has a long-standing commitment to diversity and inclusion, particularly in relation to the authentic portrayal of underrepresented groups within the screen media and entertainment industries, including audiences with disabilities. In 2024, she was awarded an MBE for services to inclusivity and diversity in UK broadcasting. As a contracted advisor to Wiggle Wood, Ally provides strategic guidance on inclusive storytelling across the series. She is advising specifically on the portrayal of Chadwick, who uses his acorn wheel as a mobility aid, ensuring that his character is integrated naturally and respectfully within the narrative. Her role supports Wiggle Wood's core belief that differences are acknowledged and valued, while creating space for every character to belong and thrive. Her input ensures that inclusivity is not an added layer to Wiggle Wood, but embedded at the heart of its scripts, storytelling and emotional framework as the brand grows.

CHILD DEVELOPMENT AND EDUCATION CONSULTANT

Dr Jacqueline Harding

Dr Jacqueline Harding is an award-winning writer, researcher and child development expert specialising in early years education and children's media. She is the author of *The Brain That Loves to Play*, Chair of the Bright Start Foundation, Director of Tomorrow's Child, Visiting Research Fellow at Middlesex University, and former BBC Education Editor. Through her company Tomorrow's Child, a children's film production and research consultancy, Jacqueline has supported the development of children's television for international audiences, combining academic research with practical media expertise. For Wiggle Wood, Jacqueline leads audience insight and developmental advisory. She conducts focus groups with preschool children to assess engagement, character relatability, music response and narrative clarity. She advises on scripts and story beats through the lens of the Early Years Foundation Stage, ensuring that each episode reflects the real emotional challenges faced by three to five year olds. Her work helps ground Wiggle Wood's stories in authentic childhood experience, supporting themes such as emotional regulation, resilience, transition and understanding change. While the series remains entertainment-led, her input ensures that its emotional arcs genuinely support children as they navigate big feelings and developmental milestones. Her involvement provides confidence that Wiggle Wood is not only joyful and imaginative, but psychologically attuned to its audience at a formative stage of life.

PRODUCTION MANAGEMENT

Nest Productions

Led by Head of Production, Marisa Erftemeijer, Nest Productions is leading on all the administrative work for The Wiggle Wood Company including budgets, HR, scheduling, tax credits etc. Nest work hand in hand with The Wiggle Wood Company team, but eventually they plan to make themselves redundant as they help us scale and hire full-time employees in the future. Marisa is someone who can bring calm to even the most chaotic of situations and create the optimum conditions for productivity. She's a people person through and through and enjoys working with new teams to help take their creative vision from page to screen, both on budget and on time. Starting her TV career in the early 2000s, she has worked on a wide range of factual and non-scripted projects from observational-docs and access-based productions to historical drama documentaries and arts programming led by familiar faces such as Damien Hirst, Simon Schama and Janet Street-Porter to name a few. Since joining Nest Productions, Marisa has worked with a wide range of companies and productions to provide Head of Production support when it is most needed. Assisting new and expanding companies in setting up best practices across their production management, troubleshooting on live productions and helping to secure commissions and funding on exciting new programming. She loves the jigsaw that is budgeting and putting together innovative ways to get the most out of the financing. Marisa's selected credits include: 'Love in the Flesh' (BBC3), 'Ashley Banjo: Britain in Black and White' (ITV1), 'Amy Winehouse and Me' (MTV), 'Inside the Vatican' (BBC1/PBS/Netflix), 'Treasures from the Wreck of the Unbelievable' (Netflix and Theatrical), 'Diana: Our Mother' (ITV/HBO/RTL), 'Putin: The New Tsar' (BBC2/Arte), 'The Force' (Channel 4) and 'Our Queen/Our Queen at 90' (ITV/WW/Smithsonian).
